SHARP BREAK AT THE LAST. Irregular and Uncertain Price Movement-Market Well in Hand.

New York, June 7 .- The speculative

appetite for stocks had lost some of its zest today, to judge by the irregular a sharp break at the last. There were some new orders to buy from the out-side world, such as is looked for espectally on Monday mornings during the progress of a speculative campaign, and prices, as usual in the circum-stances, were opened as high as pos-sible, with benevolent intent towards those having stocks to sell rather than towards the newly attracted buyers. many years, will be continued by me assisted by Dr. V. those having stocks to seil rather than towards the newly attracted buyers. The new buying, in fact, was on a moderate scale, and the first rush of realising sales was sufficient to wipe out in short order the initial advance. The market was held well in hand after that and the policy of shifting operations from one point to another, buying in fresh quarters to cover the selling of previously acquired holdings, was pursued as it was last week. The offerings of stocks were not as readily absorbed as in the boiling activity of the latter part of last week and some absorbed as in the boiling activity of the latter part of last week and some noticeable invoads on prices were made from time to time. Reading was se-lected as the principal medium for the supporting operations of the buil party. The manner in which the blocks of thousands of shares of that stock were thousands of shares of that stock wers thrown about from one hand to another gave an artificial appearance to the dealings which suggrested suspicions for the motives for this movement. It was accompanied by unverified rumors of an intended increase in the dividend on the stock. Rumors of coming dividend increases played a prominent part in the show of strength of special stocks. This was in marked medium priced goods. It is hard to give any adequate idea of all we have to offer, so we issue a general invitation to come to our store and we will be pleased to show you our line.

We have furnished over 5000 homes.

Let us show you what we can do for your home.

The time the show of strength of special stocks. This was in marked contrast with the severe reaction in the price of St. Louis Southwestern preferred, which got its dividend increase last week, leaving nothing more to be looked for as material for speculative incitement. Another group of stocks moved in response to intimations that plans were ripening for reorganization of company finances, this rumor serving Wabash well. The strong stocks were less influential in holding the rest of the market than Shea & Burke

Shea and Saturday last week

37-41 Main St.

Stong stocks were less induction in holding the rest of the market than proved to be the case in the sessions of Friday and Saturday last week. This, was partly due to the process of realising having shifted to stocks in which the movements are of greater inducence on speculative sentiment.

realising having shifted to stocks in which the movements are of greater influence on speculative sentiment. United States Steel and Union Pacific were both under pressure of this kind and the effect of this on the general speculative tone was rather formidable. There was no news of a directly unfavorable character, although one or two points in the situation were of repressive effect. One of these was the closing of the Chicago stoduce exchange on account of election day and to subsequently lessened light on the grain crop news. The hardening of discount rates abroad is beginning to prove a perceptible drag on speculative movements here. The Paris discount rate rose today. The advance in Paris cheque on London, however, relieved New York from demand for gold to ship to Paris. New York bankers are not satisfied that the outward movement of gold from New York is over yet. An advance in the price of copper metal failed to benefit the copper industrials. The bears operated timidily in fear of the demonstrated power of the bull leadership and it was not until the end of the day that they sitaiced the market with any boldness. Prices gave way all around in the last half hour. Bonds were unchanged on call.

What the Waiters said about Captain Scanion after the Barbers had trimmed them, 14 to 9, Monday afternoon, made a lurid haze in which Manager Robinson and Pitcher Joe Sullivan were seen to disappear in the direction of the dressing room: If there was anything that Scanion could handle at third it didn't come his way Monday, and eight large juicy errors at his station were a big factor in deciding the game for the Barbers.

Everything was velvet for the first six innings, with the Barbers struggling along in the rear, 7 to 4, but the seventh turned a tables. A fumbled

bout before the National Athletic clab at Philadelphia.

The recent bout between O'Brien and Johnson in Philadelphia is still fresh in puglishic memory and a majority of those who saw the bout declare that O'Brien was entitled to a draw. O'Brien is a hard man to bear in a six round bout, and Ketchell will be put to his best to get to the Philadelphia before the final gong, Ketchell, to win, must get inside of O'Brien's guard and heat him down.

This interesting pair—the boxer and the lighter—met once before in New York in a car round bout, and Ketchell will be used the Britar—met once before in New York in a ten round bout, and Ketchell will be been before in New York in a ten round bout, and Ketchell will be been before in New York in a ten round bout, and Ketchell won.
